

Myth: Your Work Life Insurance is Enough Transcript

Scene 1

Welcome to... Myth Squashers!
Are you ready to squash some myths?

Scene 2

Myth #1: Touching a toad will give you warts.
Squash that myth
Touch away! The bumps on a toad's skin are just glands and will not give you warts

Scene 3

Myth #2: The life insurance you have through work is enough.
Squash that myth

Scene 4

Employee life insurance usually only covers one or two years' worth of salary. Would that really be enough to help your family cover what they need?
Most experts recommend having 7 to 10 times your annual income in life insurance.
Plus, you'd typically lose employee insurance when you change jobs or retire.

Scene 5

Not so with Engineers Canada-sponsored Term Life Insurance, which is designed exclusively for engineering professionals.
It stays with you until age 85, even if you change jobs, retire or move anywhere in the world...
...and you can choose the coverage amount that works for you.

Scene 6

Remember, don't let myths squash you!
Let the Myth Squashers squash them for you.
